

§ 941.103 Definitions.

The terms *HUD* and *Public Housing Agency (PHA)* are defined in 24 CFR part 5.

Act. The U.S. Housing Act of 1937 (42 U.S.C. 1437).

Annual Contributions Contract (ACC). A contract (in the form prescribed by HUD) for loans and contributions, which may be in the form of grants, whereby HUD agrees to provide financial assistance and the PHA agrees to comply with HUD requirements for the development and operation of a public housing project.

Construction Contract. A contract between the PHA and a contractor to build or rehabilitate a project using the conventional development method.

Construction documents. The working drawings and construction specifications and the rehabilitation work write-ups, where applicable, that set forth the work to be done under a construction contract or contract of sale.

Contract of sale. A contract between the PHA and a developer whereby the PHA agrees to purchase a completed project after construction or rehabilitation by a developer using the turn-key development method.

Cooperation Agreement. An agreement between a PHA and the applicable local governing body or bodies which assures exemption from real and personal property taxes, provides for local support and services for the development and operation of a public housing project, and provides for PHA payments in lieu of taxes.

Design documents. The preliminary drawings and specifications and the preliminary rehabilitation work write-ups, where applicable, in sufficient detail to define the extent of construction or rehabilitation and demonstrate compliance with HUD design and construction standards.

Proposal. A document submitted by a PHA to HUD, in accordance with subpart C of this part, for approval of the development of a public housing project. As used in this part, "proposal" refers to both the "site acquisition proposal" (§ 941.303), and the "full proposal" (§ 941.304), unless specifically indicated otherwise.

Reformulation. The procedure by which HUD approves division of a

project (including units and related funds) into two or more projects, or combining two or more projects into one, or redistributing units and related funds in a project among two or more projects, in order to provide PHAs with the flexibility to adapt to site availability, to resolve development problems, to acquire buildings ready for development (before acquisition of other buildings), and to save on interest and initial operating costs.

Total development cost (TDC). The sum of all HUD-approved costs for planning (including proposal preparation), administration, site acquisition, relocation, demolition, construction and equipment, interest and carrying charges, on-site streets and utilities, non-dwelling facilities, a contingency allowance, insurance premiums, off-site facilities, any initial operating deficit, and other costs necessary to develop the project. The total development cost in the proposal, when reviewed and approved by HUD, becomes the maximum total development cost stated in the ACC. Upon completion of the project, the actual development cost is determined, and this becomes the maximum total development cost of the project for purposes of the ACC. The maximum total development cost excludes costs funded from donations.

Subpart B—PHA Eligibility and Program Requirements

§ 941.201 PHA eligibility.

(a) *General.* In order to participate in the public housing program, a PHA must be approved as an eligible PHA. HUD will determine eligibility based on a showing that the PHA has the legal authority and local cooperation required by this part.

(b) *Legal authority.* The PHA must demonstrate that it has the legal authority to develop, own, and operate a public housing project under the Act.

(c) *Troubled PHAs.* Unless HUD determines that a PHA that has been classified as troubled or modernization-troubled, in accordance with 24 CFR part 901, has adequate capacity to develop

public housing units, the PHA so classified shall engage a HUD-approved program manager to develop and implement the PHA's proposal. HUD shall review the solicitation and the selection before award of a contract is made by such a PHA.

(d) *Local cooperation.* The PHA must provide a cooperation agreement between the PHA and the applicable local governing body for the area in which the public housing project is to be located as evidence that the local governing body will provide the local cooperation required by HUD pursuant to the Act. This local cooperation shall include exemption from real and personal property taxes, acceptance of PHA payments in lieu of taxes, and the provision at no cost or at no greater cost by the local governing body of the same public services and facilities normally furnished to others in the community.

[45 FR 60838, Sept. 12, 1980. Redesignated at 49 FR 6714, Feb. 23, 1984, as amended at 61 FR 38017, July 22, 1996]

§ 941.202 Site and neighborhood standards.

Proposed sites for public housing projects to be newly constructed or rehabilitated must be approved by the field office as meeting the following standards:

(a) The site must be adequate in size, exposure and contour to accommodate the number and type of units proposed, and adequate utilities (e.g., water, sewer, gas and electricity) and streets must be available to service the site.

(b) The site and neighborhood must be suitable from the standpoint of facilitating and furthering full compliance with the applicable provisions of Title VI of the Civil Rights Act of 1964, Title VIII of the Civil Rights Act of 1968, E.O. 11063, and HUD regulations issued pursuant thereto.

(c)(1) The site for new construction projects must not be located in:

(i) An area of minority concentration unless (A) sufficient, comparable opportunities exist for housing for minority families, in the income range to be served by the proposed project, outside areas of minority concentration, or (B) the project is necessary to meet overriding housing needs which cannot otherwise

feasibly be met in that housing market area. An "overriding need" may not serve as the basis for determining that a site is acceptable if the only reason the need cannot otherwise feasibly be met is that discrimination on the basis of race, color, religion, creed, sex, or national origin renders sites outside areas of minority concentration unavailable; or

(ii) A racially mixed area if the project will cause a significant increase in the proportion of minority to non-minority residents in the area.

(2) Notwithstanding any other provision of this paragraph (c), public housing units constructed after demolition of public housing units may be built on the original public housing site, or in the same neighborhood, if one of the following criteria is satisfied:

(i) The number of public housing units being constructed is no more than 50 percent of the number of units in the original project;

(ii) In the case of replacement of a currently occupied project, the number of public housing units being constructed is the minimum number needed to house current residents who want to remain at the site; or

(iii) The public housing units being constructed constitute no more than twenty-five units.

(d) The site must promote greater choice of housing opportunities and avoid undue concentration of assisted persons in areas containing a high proportion of low-income persons.

(e) The site must be free from adverse environmental conditions, natural or manmade, such as instability, flooding, septic tank back-ups, sewage hazards or mudslides; harmful air pollution, smoke or dust; excessive noise vibration, vehicular traffic, rodent or vermin infestation; or fire hazards. The neighborhood must not be one which is seriously detrimental to family life or in which substandard dwellings or other undesirable elements predominate, unless there is actively in progress a concerted program to remedy the undesirable conditions.

(f) The site must comply with any applicable conditions in the local plan approved by HUD.
